Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I do not support State bill 210. Vote by mail is an essential part of modern living. Our ballots are complicated, and voting at home ensures that we can take our time and make informed decisions. Vote by mail encourages more participation: taking time off from work to vote is not possible for many people. In addition, I have not seen proof that vote my mail encourages fraud. Let's keep vote by mail—let's not go backwards!
