Oregon had been held hostage long enough, almost 40 years of Democrat rule. Do you know what else has been 40 years? Mail in voting. Oregon has a way of ignoring the will of the people, ignoring our votes. We voted at 57% not to allow illegals to have drivers licenses and yet you decided you knew better and reversed the vote of the people and now illegals have been registered to vote. We want in person voting with real ID with same day counts and secure counts. You need ID to buy Cigarettes, alcohol, to fly to buy a gun to rent a home get benefits. We want that for our elections. We want our elections protected.
