

Submitter: Zachary Barcus

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This measure is an extension of the unconstitutional overreach demonstrated by the executive branch.

This is a naked effort on the part of those who support the recent "executive order" which is itself a violation of our states constitutional rights. To comply is to cede power to an executive and party who intends, by their own admission, to dismantle our democracy.

Do not, under any circumstances remove our right to vote by mail.
