Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB243

Hello,

We have a plethora of great gun laws in place already. This new bill will grant more power to local authorities to discriminately determine who can use a gun.

Additionally, the unconstitutional restrictions on those under 21 will be challenged in court and will result in taxpayers footing the bill on poorly planned legislation.

Last - at a time of serious political uncertainty, creating more restrictions on gun owners further divides our country and makes democrats a political target.

If Democrats want to keep their power in the state, they need to stop making themselves appear to be anti 2A.

I say all of this as a liberal gun owner who is sick and tired of democrats being distracted by what is truly on voters minds. Save our democracy. Save our environment. Reduce the wage gap. Fix our education system. Protect our state from Trumps overreach. Protect households from constant increases by our power companies. Stop grocery stores from massive increases.
