Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

SB 243 will do nothing to stop gun crime, it will just turn good people into criminals. I wish the Oregon legislature would do the hard work to address the roots of our crime problems. Slapping down more useless gun laws is the easy way out. I also oppose SB 243 because every part of it can be challenged in court as illegal infringement on our rights. Come up with a good bill that will hold up to the law. Oregon is not good at this. I read that a lot of 'shootings' are suicides. I don't know much about it, but it still seems that placing a bunch of new rules down, isn't going to stop someone from killing themselves with a gun. The gun isn't the root of the problem. My brother killed himself with a gun, I don't blame his access to the gun as the issue. Thank you for reading.
