Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

As an Oregon voter I am completely in support of SB 243 and all its provisions. The cost of these sensible provisions is a drop in the bucket compared to the cost of gun violence in our state, which is in the billions.

The federal government has now abandoned common sense gun violence prevention. It is incumbent upon the legislators of our state to pick up the mantle that has been so unceremoniously dropped and protect Oregonians from further gun tragedies.

Please pass SB 243. Thank you.
