

Submitter: Kathleen Wilding
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

To whom it may concern,

I just want to say that I oppose SB210.

Voting by mail gives everybody the chance to vote. This includes people that work, people without regular transportation, people with disabilities, people who can't find or afford child care.

There is nothing easier than sitting in a comfy chair and taking the time to actually research who and exactly what you are voting for or against while you have your ballot in front of you.

You get to decide when and where that is, not some politician who thinks that it's okay to make you take a day off from work, drive halfway across town and then stand in long lines for hours because there aren't enough poll stations or poll workers. All while "patriots" try to intimidate and threaten you just for showing up.

Keep vote by mail a protected right in Oregon. Keep our election process safe and easy for everyone.

Kathleen Wilding
