Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Not all Oregonians that desire to vote will be able to do so on the one day that will be allowed. The disabled and elderly benefit from being able to mail in their ballots. Not only does this bill limit the Americans that can and will vote, it is a blatant attempt to do that. Voting should be accessible to as many Americans as possible. Simply put, if someone is sick or anything happens on Election Day and they can't go in person, this bill will take away their vote or force them leave home while sick.
