SB243

Waste fraud and abuse and pointless laws trying to make law abiding citizens jump through more hoops and procedures isn't going to make anyone safer or stop criminals in the slightest. Criminals don't care about following the laws and they already have more firearms than they need and can get any they want. The only thing these tyrannical 2nd amendment attacks do is make law abiding citizens less safe. Stupid people just cant grasp or comprehend what shall not be infringed actually means.
