Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote for common sense; vote yes on this bill. People who take to the time to actually study the issues and don't mind showing ID to vote in-person (remember precincts?) are people who think before they vote. We want to encourage these people to vote. Joe Biden let so many people cross the border illegally and did so intentionally. Now states have a mess on their hands with regard to the integrity of voting. Oregonians have come to learn that if it's a Democrat idea, it's probably a bad idea for Democracy and your wallet. That's just the way it is these days. Thank you.
