

Submitter:

Cody Spelman

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a born and raised Oregonian, I have always taken pride in the things our wonderful state does well. Voting by mail is one of those things we do well. Voting by mail provides an opportunity for all of our eligible citizens to make their voice heard, something that is fundamental to our society. Oregonians are not forced to take time off work, find means of travel to a voting booth, pay the cost of childcare for the duration of their voting time, stand in long lines at voting booths or be pressured to vote quickly and without thought because of other citizens waiting their turn. I have been able to participate in every election since hitting voting age, because of the ease voting by mail provides. Please oppose this bill and keep Oregon's vote by mail process alive so all Oregonians may have their voices heard.
