Testimony to House Committee on Emergency Management, General Government, and Veterans - Mosier Center

Members of the Committee, thank you for this opportunity to express our SUPPORT of HB 3870 in helping my community and home of Mosier. One look at our fire station would let you know we need the funds to rebuild it for the safety of - not only our town, but all the other communities around us who have received many hours of our local firefighters at the risk of their lives.

As Mayor Anderson stated in his letter of support, the community has done so much to raise funding, but the HB3870, if passed and we are able improve our safety initiatives and facility, we can continue to provide better quality service to all the families in this area. Help us reach those standards.

Our community has been working on this much longer than I have lived here, and they need your help. Please pass the funding and grant us the funds to complete our community safety projects.

Thank you for your consideration,
Sincerely, Laura and Stephen Barron
