

Hi to whom it may concern.

I am a stay at home mother, business owner and student. I have previously had experience with in person voting and it was a hassle to get the time off work and wait in line at specific location. I moved to Oregon and learned that mail in voting was my new option. This gave me time in my busy schedule to pick out the candidates and make an informed decision. In person voting causes me to make a rush decision because others are waiting. Mail in voting is a better option for people to be able to get the chance to study and research the potential candidate. I am opposed to in person elections because it is harmful for community members that have to balance parenting, school work, children's activities, and takes time away waiting in long lines.
