1. Our sons and daughters AT 18 CAN GO TO WAR AND FIGHT ENEMIES, but they cannot own a gun?? Are you serious? They won't know how to hit a target.
2. Law abiding people with an unloaded guns will be treated like a criminal?? Are you Chinese Communists in government??
3. You DO realize the criminals already do not follow gun laws. You are only making the law abiding population defenseless... after you defunded much of law enforcement.

The Adults need to take back the legislature and run it. This is nonsense.
