Re:SB 210

In person voting is vital to Oregon's voter integrity. Oregon lays claim to being the pioneer for mail in voting, but sadly it is rot with problems. Ballots are sent to dead people, non-citizens and people no longer residing in the state because the current leaders do not want to clean up voting rolls.

Why would anyone NOT want integrity in the vote? I can think of mostly one reason, but I will let you decide for yourself.

I do not suggest that some people who are eligible to vote should be left out of the process, but it is very easy to get an "Absentee" ballot. This way all of your information is updated as well.

We currently receive ballots at least two weeks before election day and yet some people still can't return their ballot in that time and Oregon wants to count the late returns.

I say NO to this. If you want to vote...be responsible and return your ballot within the time constraints. We are tired of waiting weeks for results. Same day and IN PERSON is the best solution.

Every election throughout our great nation should want integrity in their elections. This Oregon citizen absolutely does.

Thank you,
Lori Shaw
