

Submitter:

William Y

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

SB243 is nothing other than increasing the control that the government has over the people under the pretext of "safety."

What purpose does a 72-hour waiting period after clearing a background check provide? If I have been approved via a FEDERALLY mandated background check, but I must wait for 72 hours, what is the purpose?

There is no concrete definition of what "accessories" are bannable; broad, vague terms were given.

Gun-free zones do not protect those within, but inform those wanting to cause harm that the people within those zones are defenseless, and it will take time before police can respond. We have seen this time and time again and again where many innocent lives are taken in "Gun-free zones" and the police can not or will not respond in time, the only time the loss of life has been minimal is when someone has broken these "rules" by carrying within these zones and stopped an active shooter before they could kill more innocent people.

Take, for example, the mall active shooter in Indiana, where a gunman walked into a mall that was a "Gun-free zone" and started shooting innocent people. A bystander by the name of Elisjsha Dicken pulled his concealed carry, shot and killed the gunman.

And for a party that is so concerned about the current administration becoming fascist authoritarians, you guys sure like making it easy for them.
