

Submitter:

Roberta Lavadour

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In person voting is a barrier to participation in the democratic process, eliminating the voices of working people, those without transportation, the elderly and others who may be house-bound, students attending college in another area, among others. If you think about the policies that support those populations, you'll understand why Senator Smith and the supporters of this bill champion it. Mail-in paper ballots REDUCE fraud. This is a voter suppression attempt, pure and simple.
