SB210

Voting by mail is the safest and most secure way to vote. It makes it possible for people like me who often cannot get out of work on Election Day to have our voices heard. It is less expensive and easier to manage than in person voting. It is not impacted by weather. And most importantly, it has been working so well in Oregon we are a model to other states on the best way to manage elections.

There is NO LEGITIMATE REASON to abandon mail voting. The ONLY MOTIVATION for this bill is to suppress votes. Trying to make voting harder and with less time to vote is an attack on democracy.

Voter fraud is virtually non existent. Don't fall for this attempt to injure and punish Oregon voters.

Vote NO on any voter suppression attempts, including this one.
