Two weeks ago I sent a Cashier's Check via USPS. I was in a hurry to get to the airport so I (foolishly) put three stamps on an envelope, addressed it to go to RI and dropped it in the slot inside at the Wilsonville Post Office. To this day the envelope has not arrived. As a result I had to cancel the Cashier's check and have a new one issued. Now I have to wait 30 days for the funds from the original Cashier's check to be replaced in my account. USPS is not reliable and leaves our elections susceptible. Mail-In voting is not secure.
