

Submitter: Randy Kaufman

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I have lived in Oregon for over 50 years and have experienced many changes to the ways Oregon governs its people. Mail in voting was one of the best strategies to get more citizens to participate in voting. The current administration's insistence that allowing voting this way is highly fraudulent and unfair is yet another bald faced lie, and that in itself should be enough to motivate a common sense, common community stand against yet another 'law' put in place to make it more difficult for the democratic process to take place.

The Oregon Legislature should issue a strong, loud NO on this bill, and remain proud, free Oregonians.

R. Kaufman
