

Submitter:

Jeffrey Parmele

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

I oppose this measure. Enough is enough. This is over the top. There is so much stuff packed in this. The cost is unknown. The cost of public safety, the cost financially and the cost of the rights and liberties of good law abiding citizens!! We should be working on bringing down the cost of living and cutting taxes instead of allowing out of state organizations writing bills to change our state. The cost of this is most concerning to me. This is now under the proverbial microscope nationally. The public opposition is enormous and not just in Oregon but all across the United States. Hopefully you consider the negative consequences and let this bill die.
