On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon erroneously added 1,259 people who didn't provide proof of U.S. citizenship to the state's voter rolls since 2021, Secretary of State LaVonne Griffin-Valade announced Monday, a far higher number than previously known. I am sure there are others that voted because there was no need to prove citizenship. Vote by mail is easy to tamper with & I submit that since implementation of voting by mail, there has not been a republican governor & even extremely unpopular people seem to win easily. Make our elections honest & fair. I support voter ID & in person voting.
