Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I feel that voting should be done in person. It is a civic duty to do so. Mail-in ballots are too easily forgotten or they don't get counted properly. In person voting takes these chances away. There can be instances where someone can't vote in person. There should be avenues open to them, but the rules to this action should be very strict. We all voted just fine in person before the Democrats brought in mail-in ballots. So SB210 should be passed. Thank you for allowing me this opportunity to submit my testimony.
