Oregon's vote by mail system is something we should all be proud of. Our turnouts are regularly well above average compared to other states, and this robust participation ensures that Oregonians as a whole get the government they want. The verification system is excellent and voter fraud nearly non-existent.

Please reject the state GOP's latest attempt to roll back democracy. They should focus on developing a platform that Oregon voters support if they want more representation in state government.

The GOP should stop wasting resources at Donald Trump's request. Reject this farcical bill.
