Testimony:

I previously worked with a non-citizen green card holder at an Assisted Living Center in Newport. During the 2008 Presidential election, she confided in me that she had received a ballot in the mail. She had completed and mailed the ballot to the County Clerk. This past election, I read a post on Waldport Community page that a person had received several ballots with unknown names in his mail.

I immediately reported this to County Clerk.

How many non-citizens have received and voted illegally? How many ballots have been placed incorrect mailboxes and not returned to County Clerk?

I haven been an Oregon voter since I was 18. I am now going on 68. I see how flawed our mail-in system is. I fully support in-person voting with valid ID.
