Alvaro Graves

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail is an amazing measure for people who work or live in remote areas. This measure will harm the most vulnerable people, who can't vote on the precise election day, for any reason, be health problems, work, distance from polling locations, etc.. The sponsor of this measure should be ashamed of even proposing this, which hurts both rural and urban Oregonians, including people in his district.
