

Submitter:	Thomas Hammer
On Behalf Of:	self
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

The present methods of registering voters have demonstrated fatal flaws. Voting machines have been hacked in live demonstrations to the AG. Local control has been usurped by the Secretary of State. Voter rolls managed by the Secretary of State with central data control lack transparency. Calls for an audit have been deliberately ignored. Federal elections will be in person with real ID in the future. Oregon will have two different elections and pay double for elections if we do not follow new Federal election guidelines. Pass SB 210.
