Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Why we would we want to make it harder for people to vote? Touting unfounded (and largely racist) claims of fraudulent voting to seize on the fact that republicans do better with lower turnout is the sort of political move that the alligators in the swamp would want you to believe before sinking in their teeth and pulling you limb from limb. Keep vote by mail and keep your voice, while you're still allowed to speak.
