I'm in favor of SB 210. I do not trust the current Oregon Mail in ballot voting system. It suspiciously takes days to weeks to tabulate the vote. It's too easy to slam additional votes into final tabulation. I also DO NOT want Rank Choice Voting either because of the potential corruption involved. The fact that the democrats have remained in power due to mail in voting makes it suspicious. The fact that our voter rolls have many people that need to be purged due to death or moving. The fact that ILLEGALS have been illegally registered to vote by the DMV makes in person voting with ID attractive to tax paying citizens. Let's move back to a secure system for all citizens.
