Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been voting in Oregon since I was 19 in 2000 and mail-in voting is a secure and safe way to vote. It is also an accessible way to vote for many residents. Why would we end this voting option when there have been no problems with it and it actually increases voter turnout? This is a discriminatory bill that will only serve to dismantle our precious democracy faster and make voting less secure and harder.
