I work 12 hour shifts in a hospital. I am not going to be allowed to leave the ICU to return to my home state to vote. Voting by mail is my only option. I have been voting by mail for many years without complications. The hospital where I work has several thousand employees who are in the same situation. Please do not suppress the votes of healthcare workers like myself. We deserve to be able to vote. We should not have to call in sick to have the ability to vote either. What would happen to our patients who are on life support if we all didn't show up? We have an obligation to do no harm. Do not take away our ability to vote, which is our obligation and right.
