SB210

What a blatant and disgusting attempt to suppress a very successful voting system in our state that allows us to have some of the best voter turnout in the nation.

Oregonians love voting by mail. Do you know who doesn't? People actively trying to manipulate voting.

This measure is ableist. This measure is classist. This measure is discriminatory, and this measure is a direct attempt to manipulate and suppress the vote and voices in our state.

We know what comes next: closing down voting districts in highly populated places to further try to whittle down people's ability to have their voice heard. Create a seven hour wait in line in the rain and cold for anybody that's trying to cast the ballot. Are we intentionally trying to go back to the dark ages? Are we intentionally trying to make sure that all but the most privileged people have their voice heard in the state?

This measure is outrageous and disgusting. The people don't want this. And if you put it to actual vote, we would vote it down. Think of it that way.

Are we going to go back to being a sundown state next?
