

Submitter: Kelly Woodham

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1154

I oppose this bill. It would be a financial hardship for homeowners to install meters. Please don't force this onto us, we've already had the financial burden of installing/maintaining our wells & septic systems. This all begins with areas of concern right now but is applicable to everyone in the state. In these areas of concern, it gives the state government the right to send their employees, their subcontractors, or whoever they designate to enter private property to test soils and test septic systems whenever they want to without prior notice, eventually in all of Oregon. There is a better solution besides taking away more rights and mandating huge costs and fees on everyone.
