Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We do not have a system set up in place for in-person voting. Setting up this system will be slow, painful, laborious, and come at great cost to the taxpayers. It will also undermine democracy by essentially guaranteeing that some people will not be able to vote. I do not want my hundreds of dollars of tax revenue to go towards the denial of some people's voting rights.
