Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly believe that vote by mail in Oregon has been a huge success. The ease of which contributes to increased voter participation and awareness/research of the issues.

There is no valid evidence of voter fraud with this system and the only result of returning to in-person voting will be to place undue hardships on workers, parents of young children, seniors and those with physical challenges. This measure is not only absurd but cruel.
