Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please stop stripping away our freedoms. I can't believe I have to waste time in my day to quell dishonest actors, because if you really cared and wanted to make meaningful change, we both know this isn't it. This is virtue signaling to radicals who do not care about Americans, and do not care about God. So please, spare us the theatrics so we can focus on real issues like the deepening divide between the rich and the poor, and the spread of oppression on the Land of the Free.
