

Submitter: Ashley White

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Mail in ballots are not just about the not having to stand in line to cast your vote! It's about having all the information about what you are voting for in front of you. It is about giving people the chance to do research about initiatives on the ballot before they go to cast their vote. It's about giving working class people the ability cast their vote without working about missing a day of work that they cannot afford. It's about letting those that are home bound cast their vote. Taking away mail in ballots will cause voters be become less informed and will create unnecessary barriers to voting!
