Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I voted by absentee ballot many years before vote by mail. I often found it difficult to vote prior to my work day start or after I got off work due to my commute . This was before I had children. I did not enjoy standing in line at my local elementary school to cast my ballot. I can't imagine how many resources could be required to staff ballot stations today in my community. I can't imagine any action which would disenfranchise voters participating in the process more than this. I praise Oregon Leaders for offering Vote by Mail and encourage elected representatives to work to solve real problems not create new ones.
