

Submitter: Shannon Milburn
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Hello,

I was born and raised in Oregon and other than a year spent out of state due to work, I've spent 61 of my 62 years in our beautiful state.

I am writing in support of SB 210. I miss going to the polls to vote. I enjoyed the process of going to my precinct to fill out my ballot and putting it in the box.

The mail in process I am not a fan of. Part of the reason is I have nerve damage in my writing hand. Almost every election, my ballot gets sent back because the clerks office wants to verify it is my signature. Then I have to go to the County clerks office to prove it is me and usually I have to sign another signature card, which many times the signature is a little off of what I submitted. Also one year my ballot did not get to the clerks office, it was lost in the mail.

I would rather go to my voter precinct and show my ID, get my ballot and fill it out there. This would be great for me and not prolong the voting experience.

Thank you for the opportunity to submit Testimony.
