Measure, Appointment or Topic: SB210
To Whom it May Concern,

Regarding SB 210, I strongly oppose. I support mail-in ballots in Oregon. Why? Because we have a large population of rural and elderly folks who are still actively participating in our democracy, who support it with their tax and other dollars, who may lack transportation or be non-ambulatory to arrive on voting day in person, who can not tolerate waiting in long lines nor deal with inclement weather. For these reasons, I know mail-in ballots are a backbone of our voting process, as is our advocacy for every citizen. Mail-in ballots have successfully worked here in Oregon. Thank you.
