

Submitter: Tyler Morrison

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Vote by mail is an important element of Democracy in Oregon. It:

- facilitates voting by seniors, folks with disabilities, busy parents with kids, working people, and everyone else for whom getting to the polls can be an extra challenge.

These citizens are part of our Democracy!

- Increases voter participation and that improves the health of a Democracy

- is better for the environment (less driving)

- allows more time to be an informed voter and work through the voter's pamphlet and other information when it fits into our busy schedules.

Don't drag Oregon _backwards_ by supporting this effort to decrease participation in elections by citizens.
