SB210

I am writing as a constituent of the State of Oregon to wholeheartedly oppose moving away from vote by mail. Vote by mail allows for higher civic engagement, research into the topics up for vote, and a larger window of time to complete the voting process. This makes it much more functional for those of us with hourly jobs, jobs with inverted hours such as night shift, and those who may not be able to travel to vote without assistance from someone who cannot get time off for themselves to vote, let alone help another. Vote by mail allows for a government for the people, by the people.
