Gayle Y Lewis

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

SB 210 is a giant step to restrict voting in Oregon. The system Vote By Mail has worked well in Oregon for decades. It permits anyone eligible to vote. All of the changes (in person, on the day, showing ID) are obstacles to citizens. I have had personal experience of having a signature rejected and was given the opportunity to validate my signature and was given a new ballot. The United State is fortunate to have a safe and well-functioning USPS (well, to date) to accommodate the convenience and safety of vote by mail. For those of us old enough to remember the "before", getting up hours early to get to fight the weather to get to the polls at opening to make it to work OR to ask for a couple of hours off to get to the polls before they closed OR to miss voting because of illness on that day OR not having transportation OR not having the appropriate photo ID at the moment OR having limited mobility....

Just NO
