SB210

How asinine of supposed legislation is this? Oregon has mail-in voting for DECADES without issue until a orange-dusted tyrant has a tantrum. The Oregon legislature needs to perform its sworn duty and server the people who elected them. Mail-in voting does not pose any threat, other than to make voting easier for people to participate in the election process. Any legislature supporting this bill is at best a collaborator and worst and more likely a traitor to their electorate, oath, state, and country. Be better.
