SB210

This bill is unwarranted voter suppression!! Absolutely unconscionable. Voter fraud is extremely rare and this bill is only serves to reduce the opportunities for people to vote, by creating new barriers and changing the primary method. Most Americans are in favor of unencumbered, unconditional mail-in voting. This is also intentional partisan voter suppression as I'm sure Republicans are well aware Democrats cast the majority of mail-in ballots. Please protect the right of all eligible voters to express it.
