

Submitter: Alice Kitchin

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Having a more convenient and equitable form of voting is something we should be proud of, not try to destroy. The only kind of people who would want to smother voters in this way are people who don't want their constituents to have a voice in an election, which is not someone who should be in charge at all. Maybe instead of wasting time on this measure we could focus on important matters like the homeless crisis.
