Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly vehemently oppose this measure to change our excellent vote by mail ballot method in Oregon. This system works perfectly! Our system of voting helps give more accessibility to everyone across the board. I have never taken for granted the moment I get to sit down at my table with all the voting materials, study the options in the comfort and safety of my own home, and make knowledgeable careful voting decisions. It all begs the question of why do the Republicans want to change this law in Oregon. We the people in Oregon are very happy with the election process. It works well. There is nothing to fix here, the system isn't broken. I wish the whole country would be vote by mail.
