I fully support requiring in person voting. The mail in ballot system that Oregon uses now is not a secure way to vote. Many registered voters in Oregon do not even get a ballot. I also agree with the requirement to show a valid legal ID to vote. Voting should only be done by citizens of this country and state. Illegals should not be allowed to vote as they are not citizens. Please approve this and make the voting in Oregon secure and remove the fraud we all know is in our current system.
