Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon is dire need of same day, vote in person, proof of identity voting. There is absolutely no accountability in Oregon's vote by mail system and no trust in election results or "elected" officials. Oregonians are told the majority of us want woke policies, rampant, unchecked immigration and to fight Trump policies at the expense of our tax dollars. That is just not true. Despite what is said about Oregon, our state is a red state that is being held hostage by a couple densely populated cities filled with people who don't care to hear the opinions and experiences of the people who live in other areas. In-person, same day voting will finally allow us to be heard, allowing us to start fixing our state and making it work for and represent the true majority. The only way to free the Oregonians held hostage by the crushing liberal policies is to have fair, transparent elections. That starts with same day, in person, proof of identity, paper ballot elections.
