SB210

I would like to officially use my voice to express dissent over this proposed change to Oregon's voting practice. I oppose this bill because it would allow Trump and Musk to cheat by using voting systems that Musk has rigged to ensure Trump wins regardless of the majority voice of the people. Trump has already admitted to having Elon Musk rig the computers, as he called it "their little secret". This bill is using the guise of creating fair voting but it's a lie, it's an attempt to break a system that they can't rig. Voting by mail ensures that my voice is heard without tampering or being able to illegally change my vote. We must do everything we can to have fair elections and this bill is the exact opposite of this! Trump has already made several comments about wiping all the "blue" from the map and he knows he can't do that if Oregon's fair voting systems are allowed to stay in place. Please fight for our mail in voting system because it is not being rigged and I trust that this is the only way my voice will be honestly heard!
